

**Yale College
Class of
1968**
35th Reunion

The William Sloane Coffin, Jr. Project Committee is seeking to identify and acquire originals or copies of suitable materials to place in the Sterling Memorial Library's Manuscript and Archives permanent collection of the *Coffin Papers*.

If you have published materials or unpublished letters or manuscripts or related items including copies of his sermons or tapes of his talks, please consider donating them to Yale Manuscript and Archives Coffin Papers Collection. Papers, photos, tape recordings or videos relating to the many different aspects of the Reverend Coffin's long career of public service are of particular interest.

In addition, we would like to encourage all those who wish to participate – from our Class and from the wider world – to take a moment and write down some of your own comments and reflections about Bill Coffin. If Bill has been an important figure in your life, please take time and give thought to writing some brief comments as a letter on a 8 ½ x 11 inch piece of paper and send these pages to the *Committee* at the address indicated below. You may use as many sheets of paper as you wish, but please try not to fold whatever sheets of paper you use because we would like to assemble the collected statements in a bound volume for Bill.

During the Class Reunion in New Haven we would like to invite those of you who are willing to video some comments to or about Bill Coffin to introduce yourselves to some of the video professionals from the *Troma Video Team* under Lloyd Kaufman's direction. Lloyd and his team will be videotaping Bill's speech on 31 May at 2:00 pm in SSS 114. After Bill's talk and the panel that will follow it, you should take the opportunity to meet one of the members of the *Troma Video Team*. This should provide you with a nice occasion to express your thoughts and thanks to Bill "on the record."

With grateful thanks,

The William Sloane Coffin, Jr. Project Committee
